

## **Three Valleys Excursion:**

### **Program:**

We depart from Marrakech to explore Berber villages and magnificent natural landscapes during this day trip from Marrakech.

After your pick-up in the city, we will head towards the High Atlas. Your excursion will begin on the azure waters of Lalla Takerkoust Lake, the reservoir that supplies Marrakech with water from melting snow on the peaks... Possibility to visit the mausoleum of the famous Berber saint "Moulay Brahim," then continue towards the Berber village "Asni" passing through Toubkal National Park...

We will arrive at the Ourika Valley, where we will pass through lush plantations and orchards before stopping to enjoy a delicious traditional Tagine for lunch.

Several hikes are available along the banks of the Ourika; a very popular trail among tourists leads to a series of seven waterfalls. Take the opportunity to experience the magical world of the High Atlas... return to Marrakech.
